

# Rasmus Moberg

Web Developer

## Profile

Passionate Junior Developer with a knack for problem solving and learning new things. Cliche indeed but also true. In a year I've scored highest grades at all courses at EC education. Aside from school I've learned modern web developing at a junior level including things like webpack and Craft 3 CMS to broaden my perspectives. If you want to know more in-depth just mail me, call me or visit my Website!
